## Welcome!

...to another CRAKK run.

It seems like only yesterday that we were wrapping up another year, but here we are again, another year and another CRAKK run.

One of the things we like to do is to make sure there are changes to the itinerary each year, to keep old hands interested and provide some diversity for the committee. We also regard your feedback as the driving force behind the changes, and this year is no exception. As a result of our mini-survey, we have kept some activities and abandoned others, as you can see by the schedule of events. This year, however, we have a bit of a conundrum—what to do in the two days leading up to the CRAKK run?

By now, as you are reading this, that question will have been answered, but our decision to hold a couple of small events on the Wednesday and Thursday was based on the early indication that there were going to be a LOT of early arrivals! Having the public holiday in the middle of the week sure stirs things up!

Another area that we have to deal with is convincing you, the entrant, that we have obligations and commitments to the public, the

White Ibis management and the Police when the CRAKK run comes around. Each year, we are faced with another complaint, and most of the time it is due to outside influences that we have no control over. Occasionally, we have to look inwards, and this is the reason we had to stop certain activities, like not allowing mini-rods on the cruising track and pulling up people riding on running boards or in trailers. Unfortunately, there have also been times when we have had to ask people to "park it" because of unruly behavior or drink-driving.

### **The streets of the White Ibis are PUBLIC ROADS!**

The Police visit us each year and tell us the same things, and we MUST abide by their requests, which have always been fair. The White Ibis management and staff will always come to the CRAKK coordinator or a committee member first if there is a problem associated with the event. We are only human, and we must deal with these things as best we can, so help us by abiding by the rules of the road.

Thanks, and have a great CRAKK run!

# AUSTRALIAN Street GRAFFITI RODDING

Publishers of Australian Street Rodding Magazine and Specialist Automotive Books for Hot Rod and Custom Car enthusiasts  
One lucky entrant will win a subscription to ASR magazine thanks to Graffiti, sponsors of the 2005 CRAKK run.

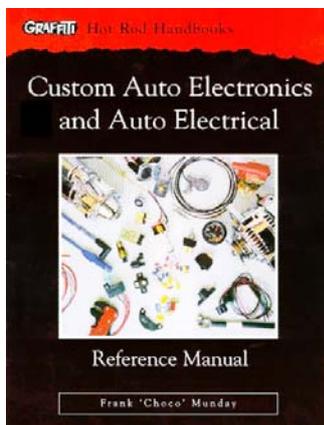

This Tex Smith book by Ron Ceridono has it all: Chrysler - DeSoto - Dodge Hemi's are covered in detail for street, race, marine and restoration in blown and naturally aspirated forms. This book is the complete source for Hemi fanatics. It includes in-depth build-ups and covers everything from the best traditional tricks to the latest in fuel injection adaptations. Complete identification and specifications for all models are given. Also included are Polyspheres and the new 426 crate motors. Choco Munday also writes about the Aussie Hemi and the elusive Toyota Hemi.

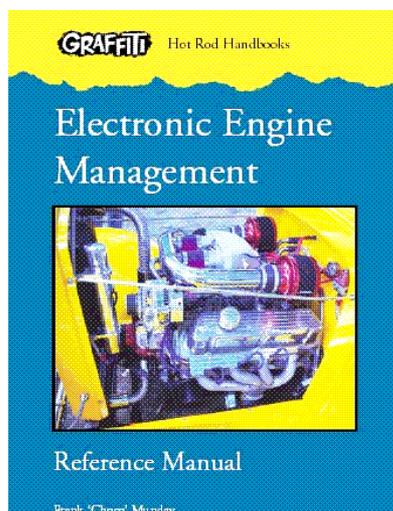

#### Radical Hot Rods

The most outrageous Hot Rods in the world are featured in this book by Larry O'Toole. All the colour and spectacle of the top end of hot rodding comes together in this full colour book. Monstrous blown

engines, huge wheels and tyres, extreme styling and exotic, advanced engineering are ingredients that combine to become the radical hot rods of today. Impractical, twitchy, but spectacular, Larry's book depicts dozens of full colour examples with mini-features throughout.

The latest manual from Choco Munday. The ever increasing presence of electronics in modern vehicles is starting to trickle through to the hot rod and custom market where enthusiasts are going to have to deal with some of this new technology. Choco Munday shows you how to get your knowledge up to speed in easy to understand layman's terms. This book also includes conventional wiring information and it is extensively cross-referenced to make your electrical and electronics research easy. No hot rodder's library should be without this book.

Discover how you, too, can build an engine management system into your Hot Rod, Kustom or Street Machine project. Described in easy to understand, plain English from start to finish, you'll be amazed at what you can do with Electronic Fuel Injection. Retain the Hot Rod look, and discover a new era of rodding technology.

### The Obligatory Blonde Joke

A blonde was bragging about her knowledge of state capitals. She proudly said, "Go ahead, ask me, I know all of them!"

Her friend said, "O.K., what's the capital of Victoria?"

The blonde replies, "Oh, that's easy! V."

Hey, Larry...want to go ride bikes?

I can't. I gotta stay right here or else I'll die.

Huh? What're you talkin' about?

My mom is trying to kill me. If I take my finger off this activator switch that she installed on the refrigerator, I'll be cooked instantly by high-intensity microwaves.

Don't be stupid, Larry. That's just the button for the ice dispenser.

Really? I guess I'm just being paranoid, then. I'll go get my bike...ARRGGGH!!!

**The Persistent Duck**

A duck walks into a feed store and asks, "Got any duck feed?"  
The clerk tells him, "No, we don't have a market for it so we don't carry it."  
The duck says, "Okay," and leaves.

The next day, the duck again walks in to the feed store and asks, "Got any duck feed?"  
Again the clerk says no and the duck leaves.

Next day, the duck once again walks in, and asks, "Got any duck feed?" The clerk says, "I've told you twice, we don't have duck feed, we've never had duck feed and we never will have duck feed. If you ask me again, I'll nail your feet to the floor." The duck leaves.

The next day, the duck walks in and asks, "Got any nails?"  
"No."

**The Barber Shop**

A man enters a barbershop for a shave. While the barber is foaming him up, he mentions the problems he has getting a close shave around the cheeks.

"I have just the thing," says the barber taking a small wooden ball from a nearby drawer. "Just place this between your cheek and gum."

The client places the ball in his mouth and the barber proceeds with the closest shave the man has ever experienced. After a few strokes, the client asks in garbled speech, "And what if I swallow it?"

"No problem," says the barber. "Just bring it back tomorrow like everyone else does."

No need, Honey. I already made them for you. Look in the fridge.

Thanks, Dear. What the...?!

I can't pass off six greasy half-sausage catamarans with bologna sails, floating on shaved ham waves as centerpieces!

Sure you can, Hon. Once that meat starts to sweat at room temp, you'll practically smell the salty ocean air.

### Deep Thoughts by Jack Handy

- ⇒ I can picture in my mind a world without war, a world without hate. And I can picture us attacking that world, because they'd never expect it.
- ⇒ Is there anything more beautiful than a beautiful, beautiful flamingo, flying across in front of a beautiful sunset? And he's carrying a beautiful rose in his beak, and also he's carrying a very beautiful painting with his feet. And also, you're drunk.
- ⇒ If you ever drop your keys into a river of molten lava, let 'em go, because, man, they're gone.
- ⇒ If you ever catch on fire, try to avoid seeing yourself in the mirror, because I bet that's what REALLY throws you into a panic.
- ⇒ To me, boxing is like a ballet, except there's no music, no choreography and the dancers hit each other.
- ⇒ Probably the earliest fly swatters were nothing more than some sort of striking surface attached to the end of a long stick.
- ⇒ I wish I would have a real tragic love affair and get so bummed out that I'd just quit my job and become a bum for a few years, because I was thinking about doing that anyway.
- ⇒ Maybe in order to understand mankind we have to look at that word itself. MANKIND. Basically, it's made up of two separate words "mank" and "ind." What do these words mean? It's a mystery and that's why so is mankind.
- ⇒ If you go flying back through time and you see somebody else flying forward into the future, it's probably best to avoid eye contact.

- ⇒ It's easy to sit there and say you'd like to have more money. And I guess that's what I like about it. It's easy. Just sitting there, rocking back and forth, wanting that money.
- ⇒ Whenever you read a good book, it's like the author is right there, in the room talking to you, which is why I don't like to read good books.
- ⇒ If trees could scream, would we be so cavalier about cutting them down? We might, if they screamed all the time, for no good reason.
- ⇒ Instead of a trap door, what about a trap window? The guy looks out it, and if he leans too far, he falls out. Wait. I guess that's like a regular window.
- ⇒ If I ever get real rich, I hope I'm not real mean to poor people, like now.

- ⇒ Sometimes I think you have to march right in and demand your rights, even if you don't know what your rights are, or who the person is you're talking to. Then on the way out, slam the door.
- ⇒ If you're a cowboy and you're dragging a guy behind your horse, I bet it would really make you mad if you looked back and the guy was reading a magazine.
- ⇒ One thing vampire children have to be taught early on is, don't run with wooden stakes.
- ⇒ Consider the daffodil. And while you're doing that, I'll be over here, looking through your stuff.
- ⇒ Somebody told me how frightening it was how much topsoil we are losing each year, but I told that story around the campfire and nobody got scared.
- ⇒ I think a good product would be "Baby Duck Hat." It's a fake baby duck, which you strap on top of your head. Then you go swimming underwater until you find a mommy duck and her babies, and you join them. Then all of the sudden, you stand up out of the water and roar like Godzilla. Man those ducks really take off! Also Baby Duck Hat is good for parties.
- ⇒ If you ever reach total enlightenment while you're drinking a beer, I bet it makes beer shoot out your nose.
- ⇒ As the light changed from red to green to yellow and back to red again, I sat there thinking about life. Was it nothing more than a bunch of honking and yelling? Sometimes it seemed that way. --

**RED MEAT**      yellowed yarns from yesteryear      from the secret files of **max cannon**

My gosh...Honey, wake up. What's wrong?

Mmph...oh Ted, I was having an awful dream that I was in a prison.

©2004 MAX CANNON

I know that dream. Women incarcerated under inhuman conditions. Forced to wear tiny cutoff shorts and denim halter tops, while suffering unspeakable torments at the hands of their sadistic captors.

WWW.REDMEAT.COM

Tension builds until a sweaty cat fight breaks out in cell block "DD" and the guards have to turn fire hoses on the inmates to break it up.

Never mind. Go back to sleep.

How can you sleep not even knowing how my caged vixens escape Buxom County Prison?
